

2nd European Sample Preparation e-Conference

Call for abstracts Joint online events | 14 - 16 March, 2022

#GSAC2022

1 st Green and Sustainable Analytical Chemistry e-Conference

Announcement of the 2nd European Sample Preparation and the 1st Green and Sustainable Analytical Chemistry e-Conferences, 14-16 March, 2022 (Online events)

Dear Colleagues,

Following the success of the 1st European Sample Preparation e-Conference we are pleased to announce the continuation of the series and invite you to the second edition of this event. This year we are also pleased to announce the initiation of a new series of conferences focusing on Green and Sustainable Analytical Chemistry.

The 2nd European Sample Preparation e-Conference (EuSP2022) and the 1st Green and Sustainable Analytical

Chemistry e-Conference (GSAC2022) will be fully virtual and occur simultaneously from 14-16 March, 2022. The two
events are organized by the EuChemS-DAC Sample Preparation Study Group and Network and are recognized by the
European Chemical Society (EuChemS).

EuSP2022 and **GSAC2022** e-conferences aim to bring together top experts to discuss new advancements in the fields of sample preparation and green analytical chemistry. In each conference, contributed sessions will showcase innovative research, cutting edge technology, as well as new products and techniques in a broad range of analytical and applied areas in sample preparation and green analytical chemistry.

Participation in the **EuSP2022** and **GSAC2022** e-conferences is **free for our members**. Membership in our network is also **free** and open to individuals who subscribe to the objectives of the network and who are professionally engaged in or associated with sample preparation. To **become a regular member**, follow the instructions found **here**.

Registration and abstract submission to the events will take place via the <u>online platform</u>. To submit an abstract, fill the abstract template found <u>here</u>. Please note that the abstract template includes detailed instructions and is attached also to this email. The name of the abstract file should contain important information like presenting author's surname, conference to be presented, type of presentation. Once completed, proceed to online registration and upload the abstract to the corresponding conference page on the online platform. Each presenting author can submit up to two abstracts. The deadlines of registration and abstract submission follow. If you need any additional information or need help with any of the online forms; please, contact us at <u>eventsampleprep@isc.tuc.gr</u> or <u>sampleprep@enveng.tuc.gr</u>.

For the **2**nd **European Sample Preparation e-Conference (EuSP2022)**, we solicit original contributions in the following general topic areas:

Topic 1. Sample preparation technologies, techniques and extraction phases

Topic 2. Sample preparations applications

- **Topic 3.** Green Sample Preparation (topic/session in common with GSAC2022)
- **Topic 4.** Annual theme of the sample preparation network (to be announced 1st December 2021)

Topic 5. Other

For the 1st Green and Sustainable Analytical Chemistry e-Conference (GSAC2022), we solicit original contributions in the following general topic areas:

- **Topic 1.** Sensors, on-site and real time analysis
- Topic 2. Analytical technologies and techniques
- Topic 3. Analytical chemistry applications
- **Topic 4.** Green sample preparation (topic/session in common with EuSP2022)
- Topic 5. Other

Important Dates:	
Abstract Submission opens	15 November 2021
Registration opens	15 November 2021
Abstract Deadline for Oral Presentations	5 February 2022
Abstract Deadline for Posters to be included in the Book of Abstracts	12 February 2022
Deadline for Registration	1 March 2022

For any additional information and inquiry please contact the secretariat (Ángela I. López-Lorente) at eventsampleprep@isc.tuc.gr.

We look forward to e-welcoming you!
