[View this email in your browser](#)**IMPORTANT MESSAGES FOR EYCN DELEGATES**

21st January 2016

Dear Delegates and friends,

I am writing to you to let you know about **3 important messages** you should know regarding EYCN and the upcoming events we are preparing such as the Delegates Assembly in Guimarães (April 2016) and the 6th ECC in Sevilla (September 2016). Please read them carefully, we would really appreciate your input.

1) The DA is almost ready. We just need you, the delegates. Please register as soon as you can in [this website](http://11da.eventos.chemistry.pt/) (<http://11da.eventos.chemistry.pt/>). Together with the Organizing Committee we are trying to keep the registration fees low. Please remember that they include:

- Participation in 5th PYCheM / 1st EYCheM
- 4 hotel nights at [Hotel Fundador](#) (***)
- 3 lunches + 4 dinners + 6 coffee breaks

There is a maximum of two (2) delegates per society with the 120€ reduced fee. Additional representatives and accompanying persons are welcome, but the fees are different (please check [the website](#)). **Please register before the final deadline: February 29th.**

2) As you may know, we are organizing a [dedicated program during the 6th EuCheMS Conference that will take place in Sevilla](#). Frédérique Backaert (immediate past Chair of EYCN) is in the Scientific Committee and he is responsible for the EYCN symposium. He wants to create four task forces to better organize everything. We need your implication. So please, if you would like some additional information about this please email: frederique.backaert@eycn.eu. Your help will be very much

3) Thanks to the amazing work of our Networks team, led by Dr. Michael Terzidis, we have arranged a collaboration with a COST Action within the H2020 program. We have managed to create a scholarship that will fund the travel expenses, accommodation and conference fees to attend the Young Investigators session of the joint meeting that will take place 25th - 27th April 2016, in Grenoble (France). The awardee will also be invited to present his/her results in an oral communication. For further details please check this [PDF](#). In addition to reading the PDF please distribute it among your young chemist network, friends and colleagues.

Once again, **thanks for your time and your collaboration** in these three projects. Please do not hesitate to contact me personally if you have any questions or suggestions.

Best regards,

Fernando Gomollón-Bel
