

Available scholarship for European Young Chemists.

Participation in a scientific meeting in April 2016 in Grenoble (France).

The [European Young Chemists' Network](#) (EYCN) together with the European Cooperation in Science and Technology (COST) Action CM1201 "[Biomimetic Radical Chemistry](#)" and the Horizon 2020 Initial Training Network (ITN) "[ClickGene](#)" are offering one (1) scholarship, for one (1) young chemist (age < 35 years old) that is currently studying or working in research in a COST [member country](#) to participate and present with an oral presentation the results from his/her research in the **Young Investigators** session of the joint

meeting that will take place **25th - 27th April 2016**, in **Grenoble** (France). The scholarship will cover for the selected candidate all the travel and accommodation expenses, in line with the COST regulations.

The research activity of the successful candidate has to fall in the scientific areas of the COST Action CM1201 "[Biomimetic Radical Chemistry](#)" and the ITN "[ClickGene](#)". Please follow the links for further information on these areas.

The applicants for the above-mentioned scholarship have to send: (1) their CV (max 2 pages), (2) a title, and (3) an abstract (max 300 words) for the work they intent to present in the meeting in Grenoble to Dr. Michael Terzidis (EYCN Networks Team Leader, networks@eycn.eu) by the **29th of February 2016 (mid-night CET)**.

Be prepared, the EYCN will also provide an award for the best oral or poster presentation during the meeting!

Dr. Michael Terzidis
EYCN Networks Team Leader
